Welcome Message

Dr. Samir Kumar Dhara
Managing Director
Lamina Research Center Pvt. Ltd.

I am intended to bring back the lost heritage of Indian Ayurveda to improve the healing process and treat from complicated ailments. I spent my whole childhood in a village that kept me close to the nature while I got to know about different herbs & plants and their medicinal benefits. Being raised into a freedom fighter family we were taught to be self dependent and make use of natural resources rather being depended on others. With all these thoughts & believes in mind, I am aiming to make a healthy and wise society to transform Indian citizen to better healthyzen. My intensive studies on Indian Ayurveda help me to know that only by living a holistic life, we can avoid 5000 type of diseases.

It is found that surprisingly right foods can make wonder to our body, starting from providing right nourishment to protecting from any diseases. Further studies on maintaining health using natural process brought me about the concept of Blue zone, where people live more than 100 years without any complex diseases like BP, Diabetes, Heart diseases, Liver disorder, Kidney failure, cancer, PCOD & PCOS etc. Even they are able to keep themselves away from doctors. In addition to that, there are 48 millions of animal other than human being living in this earth, even they are not dependent on doctors & hospitals rather they meet all their need from Mother Nature. All these studies help me to understand the root cause of all diseases, are wrong food choices & undigested waste material deposited within the digestive track & colon. According to Ayurveda, undigested food & waste material aggresses VATA (air). This aggravated vata when mixed with PITTA (Fire) & KAPHA (Water), create imbalance of elements within the body & this situation creates different types of medical diseases. Continuous deposition of waste & undigested food materials with in the body creates harm to the mucus membrane. These destroyed mucus membrane deposited as Ama and pass through blood within different organs like poison. Thus my moto is to spread the awareness on my findings that **“Food is medicine & medicine is only Food”**. I want to unfold the best and proved natural remedy for all the chronic disease with the help of my knowledge & use holistic approach.

Thought behind Feonnaa Herbals

Our society structured in a way, where people feel more comfortable to hire knowledge from specialized person even in today's scenario we are more dependable to others for nominal matter. Feonnaa Herbals aims to build a self sufficient & self aware society, where people should be aware of what they are eating & how they can make themselves healthy by their own. Feonnaa Herbals under it's many dynamic initiatives, ranging from manufacturing of herbal food supplements, that promotes health & wellness, organizing advance nutritional courses to educate the new generation so that they can spread these knowledge and transfer the society to build a sustainable environment. Our intensive & tireless research bring us to the insight that modern life style, food habits are vulnerable to the way of healthy living.

Feonnaa using Ayurvedic theory & blue Zone theory in combination & formulation with vitamix , is a breakthrough in todays scenario. Vitamix is the stepping stone to the healthy and quality life. Feonnaa also professionally trained everyone so that they can enjoy wealth & financial freedom through time compounding earning method. Feonnaa Herbals is committed to advancing people through enhancing their knowledge & increase their income.

Our vision-

1. Our vision is to take Ayurveda to a global level and establish ourselves as the best in the field.
2. The vision of our company is to help the people of the society to reach a healthy life by knowing the right food.
3. Not being dependent on others.

Our mission-

Whole world development through healthy nations.
